#### REMINDER - A stile for Phil 'Chopper' Mutton and upcoming haberhash sale

A gentle reminder to please contribute to the memorial stile for one of our founder hashers, Phil 'Chopper' Mutton who passed away in November '22. We are discussing a location with The National Trust somewhere in the Devil's Dyke area, scene of r\*n #1 back in June 1978. You can contribute either by giving money in his name at the next hash, to Knightrider or Wildbush, or by transferring funds into the Brighton Hash House Harriers Account with a payment reference of "Phil" (Lloyds Bank: 30-67-72 / 31893463)

We are still considering the best location and most effective way to hold a t-shirt sale to raise additional funds, as well as enable newer members to grab a bit of hash kit, and it may be that this is held over to our first Annual General Meeting, known in hash parlance as an AGPU (they're usually short and sweet, let's get to the beer!). Many thanks in advance.

#### REMINDER - NOTE FROM KNIGHTRIDER re the next Harvey's Brewery tour:

We are booked in for Wednesday 11th October. The tours start at 06:30 pm and the cost is £10 per person. Info of where we are to meet on the night will be sent through nearer the time. Please register your interest early as there is a maximum number of 25, by emailing me with names, and transferring £10 to the Hash A/C (with a payment reference of "Harveys" ( Lloyds Bank: 30-67-72 / 31893463). I expect this to be popular so don't delay! Cheers Kit - <a href="mailto:cdawson431@btinternet.com">cdawson431@btinternet.com</a>

19.10 8. Piston Broke - High Street, Shoreham - 0.45 miles. 5 mins from station. The last 2 pubs offer live music, so we'll check what's on, and depending on the band, we may well swap them around.

Road bikes will be fine and there is no planned rail action this weekend. Don't forget your passports!

#### BIG NEWS – CLEAR YOUR DIARY – WE'RE ISSUING THE HASH WHIP FOR MONDAY 4<sup>th</sup> SEPTEMBER!

Well, we didn't have an celebration to mark the hash's 45<sup>th</sup> anniversary, but there is an even **BIGGER** occasion planned with a night of hashing, drinking, good food and drinking at Beardsfield Nursery with a very special, not-to-be-missed party to celebrate not only **Local Knowledge's great big birthday** with an actual nought on the end, but also a **hash wedding** following the marriage of **On On Don** to **Pat** on Saturday 2<sup>nd</sup> September!

More info to follow soon but make sure to keep the diary free, rearrange any appointments already booked, and get yourselves along to what promises to be the hash event of the year!

# Inside 3 Today - wheat girl is back!

It's another amazing wheat crop this year, although my wild oats have turned to shredded wheat:

Not expecting to do well on the economics exam, Todd was heartened by the first question: In any given year, and to the nearest ton, how much wheat did the United States export? Smiling confidently, Todd wrote, "1492, none."

#### REHASHING with Dangleberry...

2316 The White Horse. Ditchling - Our hare Anybody's scarce marks are becoming guite the hallmark: So few featured for his previous invite to this nigh-on 1000-year-old venue that we should perhaps rename it The White Scarce! That was r\*n 2299 in March, and true to form our hare's re-invite was absent loo paper for large sections of trail. The cause being Anybody's mid-lay 'little lie down', and upon waking, quite forgetting the roll beside, earning him his DD. The roll was spied on-trail, though rain had rendered it worthless. And so at circle, our hare was duly awarded an honorary pub roll, returned at evening's end. And talking of honorifics, his DD was followed by quite the emerging BH7 custom, the weekly welcome-back to solid regulars Blonde Vixen and Silver Fox. Though we're getting ahead of ourselves, first a trail to hash, as Anybody ushered us out to the narrow confines of the bricked pavement to form the customary peperami-shaped circle. Where we were joined by Just Jeremy's introduction, Just Zoe, who'd make quite the debut mark on the hash and indeed various parts of her person. though more on that later. Learning the r\*n would be hare-less, it was on-out E along West St, over the crossroads to segue SE on footpath from Lewes Rd. T-ing S onto East End Ln, newboot Zoe fell, though DD went to the arms-length Hot Fuzz for failure to catch the lady in his. Though fear not HF. as Zoe, joining us fresh from a merry afternoon with friends, would gift 3 more fall+catch oppos. Resuming SE along track. trail T'd E along Underhill Ln to Westmeston Church, of similar vintage to our venue. Infact so ancient the church that when Reverend Kingston arrived in the parish in 1935, he felt the urgent need for a new organ. With mere days to spare before its dedication, the required funding shortfall was met: This electrically blown organ, complete with swell in a swell box, was something of a personal triumph for the Reverend. And indeed something of a relief for the choir member who'd been hand-pumping the harmonium for the past 50 years. Not having the time to admire the Reverend's magnificent organ (or indeed the handpumping of said organ! Phnarr. Ed.), we went S. first along Westmeston Borstal, then rising up the downs' northern escarpment, via switchback track, to join the S.Downs Way W along the ridge. Crossing the Ditchling Bostall road,

and Ditchling Beacon at 817 ft, the pack split between ridge and lower path, where quite the mystery unfolded: Nasty Nips, inspecting One Erection's copy of the Anybody-supplied emergency map, was quite sure the ridge path was right. Meanwhile, a group on the lower path were reporting the odd paper mark. Had our hare mapped one way, and marked another? Noop, NN had misread the map, earning him DD. And for believing, 1E a DD too. Continuing along the ridge, the pack spread out to such an extent that Angel reported on-trail loneliness. Indeed an emotion that perhaps our confirmed wa\*ker Wildbush experienced, when she accidentally split from the wa\*kers, to then accidentally join the r\*nners, earning her the Numpty. Meeting the Sussex Border Path, trail took that route NE down Burnhouse Bostall, a dog-leg E along Underhill Ln, then N toward Ditchling. Where another dog-leg E beside the rather wonderfullynamed Molehilly Shaw copse was missed by NN, Little Swinger, Cliffbanger and Bushsquatter, and doubtless others. Though it was CB+BS that were brought to book for the SCB'ing. With BS taking an

unfortunate customary tumble, with nick to her nose: -/ Though that was as nothing to the scratches+grazes that Zoe had to show. On-inn then was N along Beacon Rd and South St, then W along West St back to the pub. Where the usual sustenance+refreshment was slow in deliverance, as within minutes of the thirsty pack of 34 arriving, the landlord had improbably headed off to serve instead at his other pub! But fear not, newboot Zoe commended herself by joining behind the bar the overworked sole remaining bartender. Calling circle, DD's were bestowed upon the aforementioned sinners. Though none so sinful as one of our number, with RA Dangleberry then Bonking Queen recounting the following tale of such epic proportion that exception was made to 'what happens off-hash, stays off-hash'. With the following heavily redacted to preserve the identity and exploits of those involved. And so it was that BQ, out enjoying an evening in Brighton, chanced upon no other than Lily the improbably sound asleep helpfully propping up stout beech merry afternoon at the cricket, enjoyed with Erection off-licence dancing in the ale aisle improbable choice of GnT's improbably sound asleep helpfully propping up bicycle rack launched into road last-minute swerve cab's screech of brakes a hasher down plonked in the cab down-down down-down down-down!

#### REHASHING with Nasty Nips...

2317 The Old Railway, Henfield (and The Henfield Club, Henfield) - A special hash laid on by resident RA Bouncer and partner-in-crime Angel, starting at one Ale Trail pub and with a Sip Stop at another en-route! We were to be spoiled. The penalty? A 6 miles r\*n route (and nearly 7.5 miles for this hasher after checks and fishhooks). And so the hash set off, crossing Upper Station Rd and headed S on Station Rd, taking the footpath W onto and S along Beechings, rejoining Station Rd before turning W onto Hollands Ln. At the Industrial Estate the trail headed SSW along the road / footpath, confusing the FRBs as there was a little uncertainty as to whether or not this was a private road, a matter swiftly resolved when the footpath sign (hidden by overgrowth) clearly pointed the pack in that direction. On along this road until the footpath opening to the W with Angel spotted applying the check after the FRBs had been through! Along to Buckwish Ln, N to Hollands Ln, and then W. To end of Holland Ln where it turns into a footpath until Leeches, following the footpath around the

property to Frogshole / West End Ln where the road was followed WNW until the footpath W after Topfield. Footpath followed until the Adur, turning S and crossing at the bridge. The Adur continued to be followed S where a number of fishhooks would be encountered: the pack split several times with some on a high (true trail, with one hare) and some on the lower trail ('On Hare' being some hashers' excuse, as the hares had taken different routes!). The hash proceeded S in general until the next crossing, with Bathe It Daily taking a quick photo opp, before continuing NE along the footpath, turning E at Woodsmill Stream and following this until turning N towards Lepride Farm, turning E at Lepride Farm and then N at Rede House. N at New Barn Farm Cottage through the woods where the hares actually found some shiggy... In July! NE for a very short distance along

Broadmere Common

before turning NW along the footpath and N at the crossroads of footpaths, back to the outskirts of Henfield and onto the High Street / A2037 N, where 'On To Sip' was spotted. SOE, BQ and NN all picked up the pace eager to whet their whistles at The Henfield Club (Cagefoot Ln). The hares had managed to pre-arrange for half-pints of bitter and pale ale to be available - generously paid for by the hash. Drinks were consumed, Ale Trail Passports were stamped, and the hash continued W along Cagefoot Ln. The small path was missed by the FRBs, none of those familiar with the area, finding themselves running around Red Oaks Care Home with nary a mark in sight! On On was heard called from behind, and the correct trail picked up, following footpath W to and over The Hooks and on to Broomfield Rd, Squire Way and then NW at Croft Ln. The footpath carried through to Batts Pond Ln and then N to Faircox Ln before turning W at Upper Station Rd and On Inn. Circle was called with everyone already sat outside enjoying the weather (if not the food, which left something to be desired) and DDs were firstly presented to the Hares, dutifully downed to the classic 'Here's to the Hare'. Before awarding the next, it was noted that the prior weekend (Sat 8 July) was in fact a notable birthday - Fred Basset's first appearance in the Daily Mail was July 1963, making him 60 years old. But on a human front, it was also someone we all know - Kevin Bacon! (although not 60). But finally, of course, another breed of dog - our very own St.

Bernard was called up, thanked for the wonderful entertainment over the weekend, and then awarded DD to the tune of 'Hashy Beerday'. Next up it had been noted that 1E had called 'On On' for what was actually bindweed; after asking to spot the difference between some flour and bindweed on the floor, DD was quickly dispensed with to (what else but) 'You're Stupid'. BQ and SOE were then called for Racism before the Sip Stop, but both were driving and so had to nominate, BQ nominating LTP and SOE nominating NN - it was quickly pointed out that SOE should nominate his passenger (Hot Fuzz) but it transpired that HF has to then drive home from SOEs! Kind of defeats the point... LTP and NN DD'd to 'Why were they born?' before the Numpty mug was announced, awarded to Mudlark for having been at the front for much of the run and then failing to fishhook with Little Swinger having taken his place on the fishhook (and she would have taken his DD had she been present!) - downed (as much as one can with the Numpty mug) to '10, 9, 8'. Next week's hash details were shared (The Cock Inn @ Ringmer) and it was noted that this was the annual Airman memorial hash. The hash was closed with a toast To The Hash.

#### HAPPY SIXTIETH BIRTHDAY, CHARLIE!

A good turnout of hashers and others made it along to St. Bernard's big birthday hash as the sandwich filling to his Friday and Saturday night celebrations. And more joined the party later with survivors lining up for a picture, only to be photo-bombed by the man himself, who we had somehow forgotten to call over! Sadly no run report to include, although there are tales of hills and fishhooks, so page filled with St. Bernard beer, cartoons and memes:

#### REHASHING the Airman memorial with Bouncer...

#2318 Cock Inn. Ringmer - that's RINGMER for the benefit of Dangleberry who, for the second successive visit failed to connect the wiring in his brain up properly, hanging after a weekend of pirate related debauchery, and went to Wivelsfield instead! Despite that absence at the start we had an excellent pack out to mark 2 years since Airman Bob lost his health battle and flew off into the great blue vonder. including a return from James and Amanda with Merlin. Driven by Pompette, her and Don were kindly assisted by Wildbush and Keeps It Up, who gave us a chalk talk which excluded a sip but included first pint back at the pub on Bob/Chris, hurrah! Item 1 was a stroll round to the stile which sits in the field just behind the pub. where we remembered Bob or paid our respects to a lost hasher for the new boots. A guick reminder was made (given that one of Chopper Phil's last hash outings before he too slipped off this mortal coil was to this very stile where he gamely got his leg over for his lost friend) of the fundraising page on the website for Phil's stile, or more likely, gate, location talks for which are still ongoing with the National Trust. Hash was now on in earnest and off we charged westwards, notably Merlin, towards the cows which sent them into a panic. Having got mixed up with wa\*kers who were r\*nning, I realised I'd fallen somewhat behind so opted to take a leak only for Amanda to appear having discovered fishhooks! She was very polite, waiting until I'd finished before, sort of, tagging then r\*nning back. With 12 on the hook though, there was a lot of confusion over the rear of the pack so I soon found myself in the middle of the field as

we passed Barcombe Mills on the road. As we continued back to Barcombe village via the sewage works and back out on the road to find the footpaths through to Lower Barn Cottage, we were hit with several more fishhooks, again with very high numbers including a 15! Talk there was that no-one now knew who was where and we worried that we may now be stuck in a continuous fishhook! After a considerable portion of the pack missed the turn, a photo regroup at Beam Bridge effectively gotus all back together, and on we went with Bonking Queen demonstrating the gate hurdling technique taught by St. Bernard at his birthday hash, which I'm sure he didn't intend to be so indecent! After crossing the Ouse, we returned again to the weirs and cut through the Mills car park to follow first road, then finally on inn via the stile again this time from the north. The pub had opened especially for us but plenty of food was shovelled away, and of course, we all enjoyed the Harveys on Chris/Bob before circle was called inside.

After the now obligatory welcome back to Silver Fox and Blonde Vixen the hares were duly called to down to Pompettes shock, to an old favourite of Airman's – Her left tit hangs down to her navel, her right tit hangs down to her knee. If her left tit did equal her right tit, she'd aet much more wiener from me! Somehow KIU and WB got away with the double sign up error, all

the more bizarre given that it's KIU's own creation! Moving on, mention had to be made of the tennis, with a new Wimbledon champion and it was good to see that the athletic figure of Chaos had dressed appropriately with headband in the pub. Also dressing appropriately was massive tennis fan Red Slapper absolutely rocking the Barbie look in the week of its release, so she joined Chaos, and of course, Dangleberry who made it from cock to cock in record time to catch the pack and enjoy the bulk of the hash, getting off lightly as the Numpty mug was absent! A notable absence last week had been Prince Crashpian whose email was turned into a poem: *Hope the hash went okay, I'm in a bar that is qay, feeling quite queer, but at least I've qot beer, over in French Dunker-quay!* They were downed to a slightly creative "has anyone got a song for the sinners here, repeated ad nauseum until we did the down down bit. Next up were water downers for James and Amanda as returners, but also on behalf of Merlin who'd left a landmine in a barely avoidable track for James, and Amanda for her FH etiquette, arms linked

to 20 toes. After a short intermission to discuss Rebel in his absence - continuing the etiquette theme he'd lingered with the over 75's claiming fishhook immunity, leading Lily the Pink to assume he'd had a big birthday and by chance finding a birthday balloon at the precise location! Bonking Queen was then called for acrobatics along with fellow gate jumpers Cliffbanger for leading a trespass noted by RA, to be immediately followed by Bushsquatter, but it buttered no crumpet for either as they were off trail and then had to stile it back! Joining them in the final downdown was apprentice Zoe who'd requested permission to remove her top last week, but failed to show the same hash etiquette this week, whipping it off unsolicited, so a show of hands vote was held to grant her the freedom to remove her top any time she wanted, along with a number of offers to assist with the process! With that a final toast was made to Airman to wrap up another great hash!

#### REHASHING with Barbie & Oppenheimer...

Run 2319 The Fountain, Plumpton Green –Our previous visit in May came just 2 days after the Coronation, with those sporting crowns being let off the fishhook, hook. Outfits featured for this visit too, coming just 3 days after general release of the Barbie movie. Thus BH7 pink was sported, though not by our unadvised EGH3 joint hashers. Combining forces, BH7 numbered a blush 39, and EGH3 about the same, as hares Gromit and Rocks On ushered us on out from this fine village pub, S along Station Rd. Finding trail E along Strawlands, it was out into open countryside, crossing a brook, and eventually reaching T with Novington Ln, where chalk bid us S, until S bend's end. It was then again action E through fields, until T at Hurst Barns Farm, where flour bid us S, crossing the Bevern Stream to reach T with Chiltington Ln. Finding trail E through East Chiltington, we curved S to overbridge the Burgess Hill to Lewes railway, passing Spooners Fm SW. Next NW then N to Whitehouse Fm, before turning W past Wooton Fm to re-cross Novington Ln, and make for East Chiltington parish church: A 12th century construction unusually made of something much older, 135 million year old fossils. Specifically winklestone, with fossilised winkle shells standing proud from the church's pinkish stone. Without time to lend our aggregate shell-likes

to this appropriate historical curiosity, it was onward W through woodland, toward Chiltington Ferrings. Where we doglegged N through open fields to recross the railway on the level, paralleling W beside the playing fields and Plumpton Pavillion. Foregoing the rather attractive train station, it was instead on inn N along Station Rd, via a cheeky loop of the pretty village pond+hall. Back at the pub, after the usual refreshment+sustenance, circle was called. RA's sin notes are decidedly sketchy, but we opened with observation that the pack's flat-footed hashing suggests we're all Barbieworld outcasts! Thanking our hare, Just James diligently observed trail-trespass on approach to Whitehouse Fm, for that is not right-of-way, nor just after Ferrings, ably earning Gromit his DD. It was then welcome DD's for returnees Big Drawers and Pearly Cubes, and welcome backs to Just James+Amanda. likewise permanent attendees Silver Fox and Blonde Vixen. Next, DD for young Chariots of Fire, for overachieving early pack-leading. Joined by Bonking Queen, for foregoing all the fishhooks, there's no crown-exemption now! There was then something about a DD for 3 slashes-on-the-hash, and for tech-on-the-hash, citing Off With Her Head and Rocks On, though whether observer or participant is unrecorded. Clearer, was Zoe's new-shoes sin, with our newboot valiantly downing her DD from the right shoe, which was the wrong shoe, so the left shoe too. And then Mudlark's award of numpty to someone, probably me. And so closing circle upon this hashing Barbiemania, "may the hash go in pink, and return in regular garb"! **DB** 

And to watch barbie you just need a girl to go with. So watching Oppenheimer is much easier."

A Yorkshire man's beloved wife passed away. He went to the headstone maker to sort out the stone for her grave. Being a devout man, he decided the inscription should read 'She was thine'. The stonemason told him to return a week later. A week later the man returns to inspect the stone. The proud stonemason wheeled it out in a trolley. It looked fabulous, except the inscription read 'She was thin'.

"It's missing an 'e'," he exclaimed.

The slightly embarrassed mason apologised profusely and asked him to return a week later and he would fix it.
